

Lunchtime Seminar: “Open Science and Your Research”

DATE & TIME:

23. Mai 2019

12:00 - 13:30

LOCATION:

MDC.C Axon 2

PLACES AVAILABLE:

50 max

Open Science concepts and tools have the potential to transform the current scientific system for the greater good of all, but what does it mean for you? How can you and your work benefit from the Open Science movement?

This workshop will establish what Open Science is and why it is needed. There will be an overview of the main areas of Open Science: Open Access, Open Data, Public Engagement. In addition, there will be some practical tips on changes researchers can make towards Open Science, the potential career benefits of Open Science, and information on what resources the ORION project can provide. The session is suitable for those with very little or basic knowledge of open science.

Lunch included.

The workshop is free-of-charge, registration is required:
